

## An Audience with CUBO<sub>2</sub> Smart

### 21<sup>st</sup> November 2018 – Cool Concerns Tewkesbury

We would like to invite you and your colleagues to an 'Audience with CUBO<sub>2</sub> Smart' at Cool Concerns in Tewkesbury. There will be three sessions available, each session will be 2 hours.

There has been a lot of interest in these CUBO from end users, their contractors and consultants, and from posts on LinkedIn and other social media. As a result, we thought it would be a great idea to invite anyone with an interest down, so they can see for themselves the units up and running. This is not a sales pitch, it is a technical day for any questions regarding application, installation and capabilities of the unit to answered.

Stephen Benton from Cool Concerns will be heading the sessions with a brief presentation and a walk around the operating HT & LT CUBO<sub>2</sub> Smart condensing units.

The session timings are below with time for refreshments before or after:

09.00 for **09.30**

12.00 for ~~12.30~~ **Full**

15.00 for **15.30**

The programme has been designed to take no more than a couple of hours of your time, and most of this time is for you to view the units and ask questions, the start times will be kept to, so if you arrive a little late, either have a coffee till the next one or head on in. Handouts are available so anything you missed will be on these.

Tea, coffee, drinks, savoury and sweet snacks (finger food), will be provided throughout the day.

#### Programme

- Beijer Ref Introduction
- CCL overview of CUBO<sub>2</sub> Smart units
- HT & LT system walkaround to include installation and commissioning summary with open Q&A session

No need to take notes ☺ information memory sticks will be handed out on the day as well as hard copies of the presentations.

Please feel free to let others know if you think this day may be of interested to them. If you could let me know if you wish to attend, how many and what session you are aiming for as parking is limited,

We all look forward to seeing you there!
